## Pepper

So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this townSo lock it up, lock it up  
Because we're on our way now  
And if we see one light on  
This town is going downNow do you see what I see?  
This place is looking so very tasty  
And I think I smell, yes, I smell  
A golden opportunitySo when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or notSo when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or notSo here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this townSo here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this townSo here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town  
Blew out of this townSo here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this townI don't know how far we came  
But it's time to leave  
That's always a shame  
The pleasure was all mine if it's all the sameWe're on the road you see  
We're not on MTV  
But when we get there  
We won't shave our hair or be fags like CreedSo when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or notSo when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or notSo here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this townSo here I go with the bass line low  
Yeah, and there's nothing you can do

We blew out of this town  
Blew out of this town So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town  
Blew out of this town So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town
