

# Maybe There's a Way

## World5

Maybe There's A Way  
When I think of our time together  
It seems like only yesterday  
I held you so close to me  
But now you're so far away  
Maybe there's a way I can live without you  
But it might take the rest of my life  
Maybe some day I can forget about you  
It won't be tomorrow or the day that I die  
I can search the world over  
But I know that when I'm finally through  
It doesn't matter what path I take  
All roads lead back to you
