

Dancing with the Women at the Bar

Whiskeytown

When I see the moon I hear the sound of the strip
Just calling my name, just calling my name
When I see the moon I hear the sound of the strip
Just calling my name yeah it's calling my name Man, I love the feeling when I go out
Dancing with the women at the bar
Man, I love the feeling when I go out
Always know my woman's close somewhere My daddy saw the moon, heard the sound of the strip
It called out his name, it called out his name
My daddy saw the moon and heard the sound of the strip
It called out his name and it called his son's name too Man, I love the feeling when I go out
Dancing with the women at the bar
Man, I love the feeling when I go out
Always know my woman's close somewhere, close somewhere When you see the moon, hear the sound of the
strip
Yeah call out my name, yeah call out my name
And if you see the moon, hear the sound of the strip
Yeah call out my name, yeah call my friend's names too Man, I love the feeling when I go out
Dancing with the women at the bar
Man, I love the feeling when I go out
Always know my woman's close somewhere, close somewhere
