

Serious (feat. Matt Corby)

Kygo

We are so serious
Letting the money take control
Of the love that we should know
The music's mysterious
Bringing together you and me
Taking in that frequency, yeah Slow down pretending that you know
Where we're supposed to go through generations
Of just getting told, don't question the control
Working on to buy a life before it's gone We are too serious
We're letting the money take control
Of the love that's in our souls
And the music's mysterious
Bringing together you and me
Taking in that frequency, yeah We are too serious
We're letting the money take control
Of the love that we should know
And the music's mysterious
Bringing together you and me
Taking in that frequency, yeah
