

# Clean Break

## My My

I think you need some assistance  
To keep yourself at a distance  
It's harder when she's beautiful  
It's easy when she's waking next to you

If you're gonna make a break, make a clean break  
If you're gonna make a break, break clean  
If you're gonna make a break, make a clean break  
If you're gonna make a break, make a clean break

I can see the tables turning  
Homefires lit, your house is burning  
It's harder in the evening but  
It's easy in the early afternoon

If you're gonna make a break, make a clean break  
If you're gonna make a break, break clean  
If you're gonna make a break, make a clean break  
If you're gonna make a break, make a clean break

Sure there is an easy out by staying in  
For one more session  
You justify it all by seeing her in moderation  
No opportunity for her to start a new relation  
You help yourself because you're sensing  
Obligation

I think it's great the way you handle  
Both ends of a burning candle  
It's harder when she's easy but it's easy  
When she's just as hard on you

If you're gonna make a break, make a clean break  
If you're gonna make a break, break clean  
If you're gonna make a break, make a clean break  
If you're gonna make a break, make a clean break
