

Sex & Cigarettes

Sunrise Avenue

Bad girls wanna get sex and cigarettes
They think they have a thousand lives
To waste them all as they want
I don't wanna go there, no Good girls wanna have handsome suit men
They hope that's the way to all the
Happiness in the world
I don't wear no tie, no Save me and give me a direction
Don't know how to find another you since you're gone now
It breaks me and it kills my erection
I have no appetite and I'm far from all right Cool girls wanna wear fashion clothes trendy hair
They look like a Christmas tree
I couldn't ever get them
'Cause I'm out of style, yeah! The bad girls wanna get sex and cigarettes
I don't give a damn about these ladies
I just want you and me
As it was before Here's my wish list:
Deep eyes, soft lips
And a life so she don't need mine
A good heart, strong mind
All real outside
And truly all just mine
