

7th House

Danzig

Girl, I'm gonna make you come
Free your body with my gun
Girl, I'm gonna make you come
Free your body with my gun May not make it out alive
Rack your psyche, rack you blind
Free your body with my gun
Girl, I'm gonna make you come 7th house along the road
At the 7th house along the road
7th house along the road
Free your body with my gun Free your body, make you come
Free your body, make you come
Free your body, make you come
Free your body, make you come Make your hunger suck you in
Make you feel so many things
World can show you many sights
Drape yourself in dead dark skin 7th house along the road
At the 7th house along the road
7th house along the road
7th house along the road 7th house along the road
At the 7th house along the road
Free your body with my gun
7th house along the road Free your body, make you come
Free your body, make you come
Free your body, make you come
Free your body, make you come Girl, I'm gonna eat your heart
Rip your little world apart
Girl, I'm gonna make you come
Free your body with my gun 7th house along the road
At the 7th house along the road
7th house along the road
Free your body with my gun 7th house along the road
At the 7th house along the road
Free your body with my gun
7th house along the road 7th house along the road
At the 7th house along the road
7th house along the road
Free your body with my gun With my gun
With my gun

With my gun
