

Absentee Father

Filter

What's with the sweat and nervous smile
Looks like your pain's gonna kill us all
Just like a gun don't care at all
Feel's like your justice it made us fallSpeechless Jesus
One of these day's we just might need ya
One of these day's we just might need yaWhat's it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending, where's your reign
Whats it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending, where's your reignWhat's your face is the common comment now
Revelations' making me bleed out now
Wallow up in your pity party now
Swallow up what little piggies shitSpeechless Jesus
One of these day's we just might need ya
One of these day's we just might need yaWhat's it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending where's your reign
What's it gonna take
Intervene or just come clean
Where's your graceful hand
Where's the ending where's your reign
