

Terrorist? Part 2 (Feat. Mai Khalil & Crazy Haze)

Lowkey

Mai Khalil
tell them that im not
guilty
they calling me a terrorist
we know who the terror is
tell them that i'm not
guilty
they calling me a terrorist
it is time we settled this
tell them that im not
guilty
I'm all about love and peace
why you want to trouble me?
tell them that im not
guilty
my intentions are clear to see

Crazy Haze
first of all allow my client kareem dennis
to simplify his messages
and dissect the evidence
that placed him on the terror list
spread the lies of television
my client is standing accused of encouraging terrorism
he's promoting peace far from violent encouragement
i believe it's unjust that this court has summoned him
how can one man rapping lead to terrorist actions ?
this misunderstanding merits a retraction
accused of calling for attack on military facilities
you cant equate violence with criticism politically
where's the freedom of speech ?
hes just another young musician who is seeking a dream
my client is accused of inciting racial tension
he's half arab, half english
did I fail to mention ?
the media rendered his reputation ruined
think about how many youngsters he has influenced
to quit a life of crime
and do the opposite
most of the man' tracks are completely devoid of politics

the evidence is unseen, the verdict is a done deed
how can you compare a song to invading a country?
my client isn't hungry for the blood of the people,
since when is making a rap song ever been illegal ?
and the murderous thing that drives this person is love
I rest my case to the jury and the merficul judge

Mai Khalil

Both Crazy Haze and Lowkey

Sir can you confirm you're the artist know as Lowkey ?

I can

Are you aware the state has been building this case since '03?

I am

You claim that you are all about love and you promote peace

I'm here to prove that your hot speeches lead to cold deeds

Your lyrics are a virus, infecting all the youths

You say whatever it takes to get a mention on the news

You're an insult to the people and offend the soldiers too.

Objection your honor

Objection overruled

Did you denounce the monarchy and hope for a republic?

Monarchy is inequality, systemic injustice

While you strangle Aghanistan, and tangle with Taliban

Our taxes have to pay for David Cameron's cameraman

How can you compare spreading anarchy to spreading democracy?

Like you compare resistance to extension of colonies

Did you really refer to the US as an obamanation?

No, I posed a question in reference to it's domination

I scrutinize governments, you scrutinize songs

Did you compare predator drones to suicide bombs?

Yes and I question where such brutalise you can rise from is true

I choose to write songs but you can right wrongs

But what if your questions equate to the spreading of hate?

Is it true you labelled Israel a terrorist state ?
Yes cause it's based on a threat to a race of indigenous population you could never replace

Lowkey
Please allow me to state the most relevant of facts
I'm charged with section 1 of 06's terrorism act
It is alleged the music I'm publishing for exhibition
All amounts to the encouragement of terrorism
My face was placed upon the news as a wanted person
Because it caused controversy when they saw my songs emerging
If I was commercial would I have to ride all these hurdles ?
Raiding my home, take my phone, put some spies in my circle
Not on it, no comment, I would never change my position
Not in jail but they gave me these stale bail conditions
And this is the part where the plot just gets sinister
They banned me from the City of London and Westminster
I do this for the rebels that do this without the medals
For Smiley Culture, Jody McIntyre and Alfie Meadows
Before you throw it at me have a look at your backwards book
definition of terrorism, Columbus and Captain Cook
I cant lie, getting deep, our lives are very cheap
When one person dies in police custody every week
They editing my tracks
Cause im telling them the facts
You're more likley to die like that than from a terrorist attack
When you try to fight the war, people say you defy the law
Can't quiet me, this is R.I.P for Brian Haw
We know the truth, no matter what you tell them on the television
IMF, World Bank, economic terrorism
I refuse to produce chart nonsense
Not a servant to the Zionist lobby like Mark Thompson
The BBC want me making music to impress crooks

Or doing shows on military bases like Tim Westwood
Murdoch might have the news
But me I have the tunes
Your cameras move unto celebrities to distract the youth
Remember this fact is true
when you point your finger at me
There's three fingers pointing back at you!
