I Will Wait

Isa

A white picket fence on the coast
wasn't ever my styleWe'll have a love that's worn in
'cause it took us a whileI'll see my past in the corners
and cracks of your smileAnd seeing your future in mine
is all you need to survive'Cause I still believe in love
I'll be right here when you comeAnd I will wait
till I know your nameYou make me feel
like before you I wasn't aliveI know we'll fall all the time
but I still wanna try'Cause I still believe in love
I'll be right here when you comeAnd I will wait
till I know your nameThought I found you once before
but wherever you are know I'm all yours'Cause I still believe in love
I'll be right here when you comeI will wait
I will wait
yeaaahI will wait
'til I know your name
