

# You Never Stop

## Status Quo

you were a vision on your wedding day  
i won't forget that little white dress  
but you were marrying my best friend  
i never showed i was so depressed  
pretty soon you and him were through  
and you were sharing my point of view  
i made a play, we got together  
we were in love for forever  
but i was wrong stormy weatheryou never stop your moanin' and your hollerin' baby  
i never heard nobody talk so much  
one day i'm gonna see your lips close together  
you win  
i surrender  
you win  
you never stop  
i tell you i don't wanna take no more  
it ain't like you ever stop to think  
about the hurt you're putting on my brain  
it's enough to drive a man to drink  
you give me hard times and it ain't fair  
i got a suntan from all the hot air  
i need to see a new reflection  
i need to change my direction  
you and me a bad connectionyou never stop your moanin' and your hollerin' baby  
i never heard nobody talk so much  
one day i'm gonna see your lips close together  
you win  
i surrender  
you win  
you never stop  
so goodbye  
hasta la vista  
i'm movin' on  
with your sister  
i do declare  
that i won't miss yacos you never stop your moanin' and your hollerin' baby  
i never heard nobody talk so much  
one day i'm gonna see your lips close together  
you win

i surrender  
you win  
you never stop
