DJ RAP

Came from nowhere
A yearning I burn for the high
I am somewhere, can't you tell
From the colors in my eyesDon't even go there
I like what I'm feeling alight
And liberation is only a state
Of my mindJubilations, the trip in my mind has arrived
Hallucinations, my visions are all wrapped design
In my elation, I'm lost in a wormhole of time
Inhalation, distorting the suicide signsInhalation
Inhalation
Inhalation
InhalationGo go go, it's a good day
For getting out of my head
Go go go, flying high
Go go go, it's a good day
For getting out of my head
Go go go, flying high
