

I Know the Way to Him By Heart

White River

I know how it feels to be alone
And live your life without a single friend
And I know how it feels to lose your home
And not have the will to start over again

Then one day I heard about a man
They tell me that He gave His life for me
So I reached out and took Him by the hand
He made these old blinded eyes to see

Chorus:

I've never seen the Man from Galilee
But I knew it was love right from the start
I've never seen the One who died for me
But I know the way to Him by heart, the way to Him by heart.

He took a heart that was so black from sin
He made it white as snow
He's always there when I need a friend
He's with me everywhere I go, I'm not alone...
