

# Listening Man (Acoustic Version)

## The Bees

Tell me something away from trouble  
And away from doubting  
Tell me straight from the spirit  
From the top of the mountain Let love be the reason between me and you  
As real as the morning, as fresh as the dew  
If fates got a hold then it's up to you  
It's a simple thing we've got to do Just a listening man  
Try to understand  
Just a listening man  
Do the best I can Tell me something before I stumble  
And show my weakness  
Tell me right on the limewire  
Fighting for progress I can hear there's a sound that's coming through  
There's a post in the ground so what we gonna do?  
You can have all your dreams if you really believe  
In something that's something true Just a listening man  
Trying to understand  
Just a listening man  
Do the best I can Just a listening man  
Try to understand  
Just a listening man  
Get carried through this land Tell me something without any lies  
That cover my feelings  
Give me time now I understand  
These lessons have meaning Let love be the reason between me and you  
As real as the morning, as fresh as the dew  
If fates got a hold then it's up to you  
It's a simple things we've got to do Just a listening man  
Try to understand  
Just a listening man  
Do the best I can Just a listening man  
Try to understand  
Just a listening man  
Get carried through this land Just a listening man  
Do the best I can  
Just a listening man I'm a listening man  
I'm a listening man  
I'm a listening man

I'm a listening man
