Kiss It Bye Bye

Aleesia ft Big Sean

mrs bartender you say it's my last shot
when i got up on in that game
you was my number one mascot
you was the one that i was flying out
we was the ones that everyone just kept on lying about
now you tell me watt-up, stop,
back it up girl i think you're tripping,
it's no wonder why you packing up
i'm out here doing numbers,
but you say it's not adding them
cause i told you you plus me it's all i need and that's enough
you say that i'm hollywood well
you're the one acting up
i'm trying to make history but you say that we're history girl
i know that you're missing me
they say that a picture's worth a thousand words
so how come i can only think of 2 when i look at yours
he used to be 3 yeah, used to be me,
also, i'd get lost in those pretty brown eyes
so look me in the face and beg me to stay
cause this could be the very last time
if i'll take one more step out the door
and if you let one more tear hit the floor
you can kiss it bye bye, (x3)
One last chance boy this is no joke
You should know i'm sorry don't cut it no more
you can kiss it bye bye,
you can kiss it bye bye,
you can kiss it bye, bye
they say you don't know what you have till it's gone,
no, no, yeah but i say that you knew it all along
no matter what i get caught up in your issues

why do i try when i know i can't fix you to listen up,
you really messing up boy had it from a bluff
i mean that when i say
if i'll take one more step out the door
and if you let one more tear hit the floor
you can kiss it bye bye, (x3)

one last chance boy this is no joke
you should know i'm sorry don't cut it no more
you can kiss it bye bye, (x3)
if you want me to stay, i want you to cry, i want you to beg boy,
don't ask why when i say jump,
you say how high
and i say don't stop till you touch the sky maybe then
i'll start to believe everything that you say you mean
so come and kiss me make it better, baby please
don't make me leave,
don't make me leave, no, no
don't make me leave, noooooo
if i'll take one more step out the door
and if you let one more tear hit the floor
you can kiss it bye bye,
you can kiss it bye bye,
you can kiss it bye, bye
one last chance boy this is no joke
you should know i'm sorry don't cut it no more
you can kiss it bye bye,
you can kiss it bye bye,
you can kiss it bye, bye
you can kiss it bye bye,bye,bye...
