

# Hermaphrodite

## Death SS

I've seen you, I've seen you  
The double-headed one  
You appeared to me like an obscene child  
You've revealed, you've disclosed  
All your secret lust  
All the glory of your double properties  
The supreme beauty of all your perfect being  
Solve et coagula, hermaphrodite  
Chased and geburah, hermaphrodite  
You're the bearer of light  
You're the horned god  
Without limits, without shadows, without fears  
You are woman and man  
You're the quintessence  
You're the substance of all elements and laws  
Father, mother, son and daughter all in one  
Solve et coagula, hermaphrodite  
Chased and geburah, hermaphrodite  
You can give us the key  
Of your seven seals  
The great power of all your sexual spells  
You're the devil who has found  
Our inner truth  
The vibration of the energy that feeds  
Friend and lover, brother, sister all in one  
Solve et coagula, hermaphrodite  
Chased and geburah, hermaphrodite
