Kinetic

The Sound

What would you do, what would you do
Stuck in the same feet for twenty seven summers long
I've faced the facts I've faced the facts
But I just won't keep starring
I'll keep it in mind and to come on strongIt's always time to break out
It's always time to move
But when you run out of potential
You hit upon the need for some proof
Let's connect it make it kinetic
You kiss me, you touch me
You don't know where I've been
But I remember and it's all too clear
The spur of the moment, the spur of the moment
Digs in my side, is that my price
Well It's too high, let's get out of hereIt's always time to break out
It's always time to move
But when you run out of excuses
You hit upon the need for some truth
Let's connect it make it kineticYou take what you take
You take all you can
To feel how I feel
Well I'm who I want to be
We're not thinking, this is not thinking, this is up on high
With some not quite natural energy
There's no time like now
Just no time like now
You want to waste this moment, yeah
You want to waste your time
You want to waste your life away
But you won't be wasting mine
I can't see any holes in my feet
You won't need to be corrupting me
I can't see any nails in my hands
To stop me reaching for something
I don't quite understand
Make it kinetic
Make it kinetic
