Before We Say Goodbye

Prozak

Sometimes your heart
It feels so far away
Sometimes our lives are night and day
It always seems there's something out there better
Who knows?
CHORUS:
Before we say goodbye
Take a breath and think about it
You're the one who makes me feel
Ten stories high
I'll survive and stay alive and
Take a look down deep inside
Before we say goodbye

Sometimes my world
I feel it sweep away
I hear your name and I feel safe
Sometimes we dream of another life we're missing
But who knows?
REPEAT CHORUS
Before we say goodbye
Take a breath and think about it
You're the one who makes me feel
Ten stories high
I'll survive and stay alive and
But I need to know why
Before we say goodbye
