

# For Love

## Souleye

Verse 1Now there's a new definition of love /  
I looked it up / I wrote it down /  
Memorized thoughts for now /  
But freestyle helped me to find my way home /  
If I was ever lost and didn't know where to go /  
Oh is that so the flow sounds familiar /  
I got an accent and shows in Australia /  
I'll marry ya if you got the right criteria  
Here we go again chromosome dance our DNA/  
For love in this life and clarity /  
Only the best, good luck, I'll see ya later queen /  
Don't complain when it all washes away /  
You got a castle made of sand don't be a sour apple /  
Left a bitter sweet taste in my memory bank /  
Your commission missed the mission /  
So I pardon my thanks /  
Keep the roses anyway, see I'm an orchid man /  
And got too much love to fall back on the plan /ChorusFor love do it all for the family  
Full of love I can see the similarity  
For love I'll never fall back /  
For love, for love /  
Fall back, no I'll never fall back /  
I'm out on the front line following the map /  
Fall back, no I'll never fall back for love /  
I'll never fall back / 2xVerse 2And if I do apologize I'm sorry that I did it /  
Good thing for second chances /  
Look it now I'm all up in it /  
I let you go but never in life /  
Were you truly mine /  
And who am I to say that /  
You were not genuine /  
Things you fake you can't replace with sugar lines /  
Lie to me and ok now her stories gone /  
It was a nice one could have been written well /  
Caught up in the detail fairytale /  
Lakes are frozen no longer they dried up /  
I drive my own motorcycle now with a side car /  
A metaphor for more exploration /  
We can't stop creating, /

If we do, we die, dead, gone /  
Don't lose that feeling of love /  
For its created in song / The portal the palm /  
Its written in the stars / And I'll never fall back /  
On forgiveness for the essence of love /  
Is the map key the question yes all the above /  
Now go ahead and break it down a bit /  
See the conglomerate its not to complex when you let it fit /  
Good advice in this life stick to your business and the rest /  
Will fall in place promise that's how it is /ChorusFor love do it all for the family  
Full of love I can see the similarity  
For love I'll never fall back /  
For love, for love /  
Fall back, no I'll never fall back /  
I'm out on the front line following the map /  
Fall back, no I'll never fall back for love /  
I'll never fall back / 3x
