

# Hi

## Warpaint

Up all night,  
You wore your falling heart  
Opened up to us,  
And now we know the days you left You said the saddest mind  
Turned it inside out, your mother  
She knows your things can do without In the middle of the day  
We found love  
In the middle of the day  
We would know So back in you gave to us  
All our love, all our life  
All our love, all our life  
Turned it inside out,  
I know it hurts  
Even you're stuck with me in  
And come back  
But you brought the sad over In the middle of the day  
We found love  
In the middle of the day  
We found love  
In the middle of the day  
We found love In the middle of the day!  
In the middle of the day!  
In the middle of the day!  
We found love
