Dance With Me

Nino

Dance with me (2x)Every night, I close my eyes and all I see is you
But to dream of you being mine is all that I can do
I don't even think you see me, I don't even think you know
But if I get the chance to hold you i'll never let you go
I don't care where you were last night
I don't care where you'll be tommorow
Oh baby don't put up a fight
Theres only one thing you should do tonightChorus:
Dance with me
Oh baby dance with me till the morning light
Dance with me and everything my girl, it will be alrightGive me a chance to show is all that I can say
These feelings are all so strong, will never ever fade
I know you think its too fast, I know you think its a lie
But if you give me all of you i'll never say goodbye
I don't care where you were last night
I don't care where you'll be tommorow
Oh baby don't put up a fight
Theres only one thing you should do tonightChorus (2x)I don't care where you were last night
I don't care where you'll be tommorow
Oh baby don't put up a fight
Theres only one thing you should do tonightChorus (3x)
