

Body Snatcher

Billy Idol

Full moon glow steals the light
When headless horsemen ride
In the distance hellhounds cry
And banshee wails arise Turn your fear into fantasy
Concealing all the pain
You the victim of perfection
The dark side gets its way
The dark side gets its way Aint no use singing the blues
Aint to one finding no clues
And you cant walk away
No stopping, no escape Tired eyes you cannot fight
The body snatcher comes tonight
Wired mind embraced the sight
The body snatcher comes tonight Creeping shadows cross the walls
What are they trying to say?
Lucy Love died in this place
Ive come to take you away Turn the spirit when you sleep
And leave an empty space
Im the demon of destruction
The gods have now been swayed
The gods have now been swayed Aint no use singing the blues
Aint no one finding no clues
And you cant walk away
No stopping, no escape Tired eyes you cannot fight
The body snatcher comes tonight
Wired mind embraced the sight
The body snatcher comes tonight Well, you cannot run, you cannot hide
Cos evil has its dark design
You cannot run, you cannot hide
Cos evil has its dark design I have reason to believe
Theres power in the signs
Look she turns ghostly grey
The dark one has arrived Tired eyes you cannot fight
The body snatcher comes tonight
Wired mind embraced the sight
The body snatcher comes tonight Well you cannot run, you cannot hide
Cos evil has its dark design
The body snatcher comes tonight
Yeah, yeah, yeah Yeah, you cannot run, you cannot hide

'Cos evil has its dark design
The body snatcher comes tonightAint to use singing the blues
Aint no one finding no clues
And you cant walk away
No stopping, no escape
