# Anyway

## Kevon Edmonds

You know that I'm crazy 'bout you babe
Why do you play with me anyway, anywayIs that anyway for you to treat somebody who loves you
Who thinks the world of you, you know, you can't treat me anyway
Is that anyway for you to treat somebody who needs you
An' goin' out their way to please you, I must be crazy but anywayYou know the buttons to push, you know the words to say
You got the smile to use to get your own way
I'm getting paid, you got it made in the sade
And every day is like a holidayYou know my weakness, you know I can't say no
You know my no means yes and my stop means go
You're taking me for a ride and this is how it looks
From my side, peep the gameIs that anyway for you to treat somebody who loves you
Who thinks the world of you, you know, you can't treat me anyway
Is that anyway for you to treat somebody who needs you
An' goin' out their way to please you, I must be crazy but anywayCheck it out
I catch you out flirtin' with the boys in the hood
You turn it round make me feel I misunderstood
Every time I'm the last to know
Here's your academy award for puttin' on the greatest showMomma told me 'bout girls like you
And all the trouble they can put you through
I give you love but you make me pay
When you turn around and give it all awayIs that anyway for you to treat somebody who loves you
Who thinks the world of you, you know, you can't treat me anyway
Is that anyway for you to treat somebody who needs you
An' goin' out their way to please you, I must be crazy but anywayGirl, you make me say, baby, baby, baby, baby
Can't believe the games you play just to get your own way
Baby, baby, baby, baby
All along you set me up waitin' for your perfect paydayBaby, baby, baby, baby
It's comin' back to you an' you will be mortified tore up inside
Baby, baby, baby, baby
Me and my new shorty will be rollin', rollin', rollin', rollin'Girl, you make me say, "Hey", when you do me this way
You blew my mind and made me blind, I couldn't read the signs
Girl, you make me say, "Hey", when you do me this way
Just so you, it's time to goIs that anyway for you to treat somebody who loves you
Who thinks the world of you, you know, you can't treat me anyway
Is that anyway for you to treat somebody who needs you
An' goin' out their way to please you, I must be crazy but anywayIs that anyway for you to treat somebody who

loves you
Who thinks the world of you, you know, you can't treat me anyway
Is that anyway for you to treat somebody who needs you
An' goin' out their way to please you
