Goodbye LI

Giants At Large

So goodbye, goodbye LI
I'll see you another time it's just that
These six strings say that it's time to go
And this time well be gone for more than the weekend
The way that were moving there's no time for thinking
Dear mother I thought that you should know
That I'm never coming homeCross your fingers well get there and back
No matter what they say well find our way across the map
Coast to coast
Hold on kid the best has yet to come
Were not wasting our time were doing what we love
It's what we love
