

Freedom

Morgan Heritage

Were crying for freedom, for all man kind
We don't care about color racism is not our style
We fighting for a better world, for the young boys and girls
This is our contribution towards a better world Somebody sing
Freedom for every black man
Freedom for every white man
Freedom for every Indian
Cause we believe someday here on earth everyman will be free The world is gone crazy, that's life in this time
We've got to make changes without destroying mankind
World unity that's how we should be
Let's open our hearts and welcome tranquility Somebody say
Freedom for every black man
Freedom for every white man
Freedom for every Indian
Cause we believe someday here on earth everyman will be free We're going through to many changes
Just to find peace of mind
If we could only be humble
Find a way to love each other while believing in each other Then everyman will be free
Everyman will be free Riding on the wings of dove was a message from above
Over the hills and valley's there's a stream of love
Out of are reach cause of the way we chose to be
Can you see, we got so many souls in need
Indeed, there's so many ways to find a way
To communicate about the facts of life
It's there so come and share this vibe with me
Under the umbrella of the love we keep it tight alright We need positive people, with positive ways
Everyman working equal towards a brighter day
We need to have faith that all good things will come true
The better days I pray for are for me and you Everybody sing
Freedom for every black man
Freedom for every white man
Freedom for every Indian
Cause we believe someday here on earth everyman will be free
