Worlds Away

Dark Times

I'm walking down a lonely road
One that I've never known
I hope it leads me home
Sometimes I feel so far away
Can't find the words to say
I'm exiled on my own
Give me something to believe
I'm worlds away
I'm worlds away
I'm worlds away
Tryin' to find my way home
I look to the sky right over me
Hoping you see the stars I see
It makes me feel less alone
There's never one place that I can stay
Sorry my world's so far away

One day I promise I'll be home
Give me something to believe
I'm worlds away
I'm worlds away
I'm worlds away
Tryin' to find my way home
I need someone to take my hand
I need someone to understand
I'm standing on the edge
And I'm looking down
I'm worlds away
I'm worlds away
I'm worlds away
Tryin' to find my way home
Tryin' to find my way home
Tryin' to find my way home
Tryin' to find my way back home
