

Monday Morning

[Robyn](#)

[Whispered:]

(Friday, Saturday, Sunday) I know you'll love me on a Friday night

Having fun is always easy with you

You're always down when everything's alright

And just like you I love to play,

But real love is everyday ain't that true

And I need your love the whole week through

Yeah, so [CHORUS]

Will you still love me on a Monday morning

72 hours ain't that long

Will you still love me on Monday morning

Will you hold on after the weekend's gone Saturday afternoon always comes too soon

'Cause I know there's only one more day

Sunday morning lovemaking when we lay in bed together

I could stay right here forever, could you

Could you love me the whole week through [Chorus (x1)] I could brake down and start crying on a Wednesday

Will you be around to be my shelter on a Thursday

Tuesday is coming don't be running away

Will you stay after the weekend's gone [Chorus (x2)] (Friday, Saturday, Sunday)

(Friday, Saturday, Sunday)
