This Is War

7L, Crypt the Warchild, Esoteric, King Syze, Plane

He was enslaved, to the dirty system, pero murio (to face the end) mother fucking come on
This was the final mission
His life had just begun
It all had to be so fucked up
His death to me, so fucked up
His face remains so deathless
[Chorus]This is war
And I swear that Im not giving up or giving in
This is war?
Then I swear that Im not giving up or giving in
Or giving up
This life is war
This is war

Society is a loaded weapon
No one is exempt from the bullet within
El systema (the system) is a prime example
De lo que pasa cuando (of whats to happen next)
The streets could be so fucked up
His destiny so fucked up
His face remain so deathless
[Repeat Chorus]Dios mio, alma mia, por que me as llevado la vida
(god of mine, soul of mine, why have you taken my life)
Cuando yo todo te lo he dado (when I have given everything to you)
En mi hora de muerte, no me dejes morir (in my hour of need, dont let me die)
Necesito otra vida, Necesito que me digas (give me another breath, Speak to me)
Is this war? Is this war?
This is war
