Another Country

Demon Fuzz

Lost hours and secrets too
No one will find but you
And falling is like brand new rain
Places I have never beenI thought these things would come to me
Love is another countryAnd I wanna go, I wanna go too
Wanna go with you
I wanna go too, wanna go with you
Wanna go with youBut Im broke down right here
My heart wont come out clear
I get lost on the inside too
How could I make sense to you?When you walk away from me
Youre further than another countryI wanna go, I wanna go too
Wanna go with you
I wanna go too, wanna go with you
Wanna go with youIf you should lose your place
This world should hide its face
And go where you cant follow to
I will come and look for youYou can just hold onto me
Strangers in another country'Cause I wanna go, I wanna go too
Wanna go with you
I wanna go too, wanna go with you
Wanna go with you, wanna go with you
Wanna go with you, wanna go with you
