Easy Plateau

Ryan Adams & The Cardinals

Let's take a ride to the easy plateau
Where the cold don't come an' the wind don't blow
Moonlight flickers on the water below
The orange grove blossoms in the orange groveBad nights lead to better days
Doesn't matter but I think about it anywayI want a easy plateau
Some place to rest my head
I want an easy plateau
Some place to rest my head
For awhile, for awhile, for awhile
For a little whileSleepyhead, come on let's take a ride
To the easy plateau in the back of your mind
Up through the alley, take the door under the stairs
My head ain't feelin' nothin' but cats an' rockin' chairsBad nights lead to better days
Never happens but I think about it anywayI want an easy plateau
Some place to hang my head
I want an easy plateau
Some place to hang my head
For awhile, for awhile, for awhile
For a little whileHow do I hold on to you
If I can't hold on to me?
How do I hold on to you?
I want an easy plateau
Some place to rest my head for a little whileI want an easy plateau
Some place to rest my head
I want an easy plateau
Some place to rest my head
An easy plateau
