

# Easy Plateau

## Ryan Adams & The Cardinals

Let's take a ride to the easy plateau  
Where the cold don't come an' the wind don't blow  
Moonlight flickers on the water below  
The orange grove blossoms in the orange groveBad nights lead to better days  
Doesn't matter but I think about it anywayI want a easy plateau  
Some place to rest my head  
I want an easy plateau  
Some place to rest my head  
For awhile, for awhile, for awhile  
For a little whileSleepyhead, come on let's take a ride  
To the easy plateau in the back of your mind  
Up through the alley, take the door under the stairs  
My head ain't feelin' nothin' but cats an' rockin' chairsBad nights lead to better days  
Never happens but I think about it anywayI want an easy plateau  
Some place to hang my head  
I want an easy plateau  
Some place to hang my head  
For awhile, for awhile, for awhile  
For a little whileHow do I hold on to you  
If I can't hold on to me?  
How do I hold on to you?  
I want an easy plateau  
Some place to rest my head for a little whileI want an easy plateau  
Some place to rest my head  
I want an easy plateau  
Some place to rest my head  
An easy plateau
