Waking the Jetstream

The Go! Team

I don't know if the day is here.
But the galaxy knew.
I don't know if it's getting here,
But I think that you do.Waiting for something to arrive,
Waking the Jetstream.
Somehow, someway, we organize,
Waking the Jetstream.Carry on, say it every day.
Round again, in the only way.All the people who never try.
All the people who do.
Everyone on the morning train-
Are they feeling it too?It's just a reason to move on,
Waking the country.
Somehow, someway, we carry on,
Making the country...Come around. Do it every day.
Here again, in the only way.
Honey, all... All we ever do...
Ah... All we ever knew.Getting together,
Sitting on the shelf,
Hitting on nothing.
Hang on yourself.Whoa...Does the world really have to know
Every word that we say?
Does the world really carry on
If they take it away?This is the reason to survive,
Waking the Jetstream.
Take my whole life to realize,
Waking the Jetstream.Carry on, say it every day.
Round again, in the only way.Honey, all... All we ever do...
Ah... All we ever knew.Getting together,
Sitting on the shelf,
Hitting on nothing.
Hang on yourself.Whoa... [x3]
