Before the Song Is Over

Aron Wright

Let's take a step back
Stop and look at where we're at
You feel like candles
Coming down on your world of glass
For every peak there is a valley
This climb starts with one stand
So let go of all you carry
The gravity of such regret

What if the best is yet to come?
You just need a little more time beneath the sun

Close your eyes, one more time
Give me a chance to change your mind
It's just a dance, you're a step behind
Don't leave, don't leave before the song is over
Before the song is over

Let's take a breath now
Do more than just react
Don't you get tired of standing
In a place bound to collapse?

Not every question has an answer
I won't ask you to pretend
The unknown is not an ending
It's the place where faith begins

What if the best is yet to come?
You just need a little more time beneath the sun

Close your eyes, one more time
Give me a chance to change your mind
It's just a dance, you're a step behind
Don't leave, don't leave before the song is over
Before the song is over

Close your eyes, one more time
Give me a chance to change your mind
It's just a dance, you're a step behind

Don't leave, don't leave before the song is over
Before the song is over, before the song is over
