

Sleepwalking

Bleached

Sleepwalking my whole life.
Wasn't until now I finally see the light.
Head spinning for some time.
Making an escape before I miss my time. It's really too bad too feel like walking dead.
But now my eyes are open wide.
the sun don't always shine
When you're not alive
But now my eyes are open wide Day dreaming no sun in sight
oh mister can't you see I'm losing my mind
Sleepwalking my whole life
wasn't until now I finally see the light it's really too bad too feel like walking dead
But now my eyes are open wide
The sun don't always shine
When you're not alive
But now my eyes are open wide it's really too bad too feel like walking dead
But now my eyes are open wide it's really too bad too feel like walking dead
But now my eyes are open wide it's really too bad too feel like walking dead
But now my eyes are open wide The sun don't always shine
When you're not alive
But now my eyes are open wide Sleepwalking my whole life
wasn't until now I finally see the light Sleepwalking my whole life
wasn't until now I finally see the light Oh mister can't you see I'm losing my mind
It's really too bad too feel like walking dead
But now my eyes are open wide
