

I'd Give You Anything

Ash

The days seem the same and you feel like you're losin' your mind
I tasted the danger and went south of heaven tonight
I didn't mind, she wasn't into lettin' go
I didn't mind 'cause she still was nothin' like you
How can you lose when it's waitin' for you?
You should come on when it's there for the takin'
It's waitin' for you
The days seem the same and you feel like you're losin' your mind
I tasted the danger and went south of heaven tonight
I want to wake up in the morning feelin' fine
Just like you I want to wake up feelin' alright
How can you lose when it's waitin' for you?
You should come on when it's there for the takin'
Waitin' for you
