

Thrash

Underworld

When you feel like it you just do it you never move around it you walk
Through it well you don't give a damn where it comes from 'cause
Everybody gonna have to chew your junk well does it feel right? Mmm does
It feel right? Well let's jump let's jump to a blazing beat when you
Close your eyes and strap into your seat you got the throttle wide open
I head your engines scream it's a terrifying scene do you know what I
Mean well let's funk, let's funk in my car let's jump to the nearest
Star 'cause you won't get far with all that trash when all you do is
Thrash! Thrash! Thrash! Let's funk, let's funk in my car let's jump to
The nearest star 'cause you won't get far with all that trash when all
You do is thrash! Thrash! Thrash! Motivator is the name of the game and
If you want to know you're the biggest pain! You pull the plug out when
The chips are down you stand on my face and kick me when I'm down!
