

# Scatterbrain

[macgregor](#)

Reasoning is wrong aside from anything that's rightly named  
Deniably insane, so lost, you're torn away  
Your sympathy is strange, it's so unlike you still to be the same  
Fight the urge to change and leave another day  
It's not hard, it's not so appealing  
To play it straight ahead  
It doesn't make it true  
You're throwing your charm away  
You turned into a scatterbrain  
I don't know why, I don't know why  
You're telling me it's all the same  
By throwing all your charm away

Don't turn into a scatterbrain  
I don't know why, I don't know why  
You're telling me it's all the same  
By throwing your charm away  
Don't turn into a scatterbrain  
I don't know why, I don't know why, don't ask me why  
Lately you've been hard to find  
You're hiding from what's left behind  
You're falling into habits I don't understand  
Crazy as it seems, I'm not sure it's what I don't believe  
Afraid the day is gone before you start again
