NY2LA

Press Play

Everybody get together
Let's work it out
Got the answer for this world
Let's make it count

Uh oh, uh oh
It's time to live it out
This crazy world we're livin' in
Is lookin' to us now

Oh, we all need love
A different kind of love
One that only comes from above

Everybody dance
Everybody move
We can make a change
From New York to LA

It's made up to you and me
So what's it gonna be
We can make a stand today
For love and unity

Uh oh, uh oh
I think the time has come
For us to make a difference
And live as one

Oh, we all need love
A different kind of love
One that only comes from above

We are here on planet earth
To make a change
To stand for those who cannot

To never back down
But stand proud for God

The one and only true love

A different kind of love
A love that gives and forgives
Doesn't judge but extends a helping hand
A love that finds a need and fills it

A different kind of love
A love that shares hope, vision and dreams
A love that's not relevant, but revolutionary

Everybody dance
Everybody move
We can make a change
From New York to LA

Everybody dance
Everybody move
We can make a change
From New York to LA

Everybody dance
Everybody move
We can make a change
From New York to LA

Everybody dance
Everybody move
We can make a change
From New York to LA
