

I Can Destroy

Paul Gilbert

A fragile love
Ain't built to last
I make my future
From the wreck of the past
It's being this way
Since I was born I love anything that I can destroy
I love anything that I can destroy And this guitar
Is built to play
She was not far
Just yesterday
She cries and screams
For faith and ___ I love anything that I can destroy
I love anything that I can destroy And this old world
Is made for me
I can move the mountains
And push them into the sea
Fly across the sky
And take a ___ at the moon
Someday I'll be leaving
But it won't be too soon
Yes I'm killing time
And I mean to enjoy I love anything that I can destroy
I love anything that I can destroy I love anything that I can destroy
I love anything that I can destroy
