

Darker

Doves

Bad snow freeze my throat
And numbs my soul
Eats me whole to pick me up
That's where you knowFree to go
You call the Jones
Makes me old before I'm old
It's all you loveDeep inside I go, you love
The less I seem to know, you loveBad snow numbs my throat
And leaves me dry, leaves me dry
Leaves me barely whole
Down to the wireRock gone cold
You caught a cold
Like so many times
Before it's all you loveDeep inside I go, you love
The less I seem to know, you loveHere now, deep inside I go
Here now
