

All the Funk I Need

Amalia

you're all the funk that i need
in this galaxy of wondrous tingz
all the funk that i need, all the funk, all the funktake a ride on this starship
hold on tight to mewizzin', spinnin, flyin, flowin' thru em
interweavin' past em stars at lightspeedif this vision is the only validation that we both need
then baaaaby this sight, one sweet infinityyou're all the funk that i need
in this galaxy, wondrous tingz
all the funk that i need, all the funk, all the funkyou're all the funk that i need
in this galaxy, wondrous tingz
all the funk that i need, all the funk, all the funkelectromagnetic fields of joy
dividin' and convergin' all
utopian visions
takin us far, far, far, farunalienated places
feelin' each universe
in just one kiss
oh our kiss, oooooohhhhh how i missyou're all the funk that i need
in this galaxy, wondrous tingz
all the funk that i need, all the funk, all the funkyou're all the funk that i need
in this galaxy, wondrous tingz
all the funk that i need, all the funk, all the funkoh why can't we stay
in one place together
oh i don't want ya to play
on my mind, lost forever
oh I remember the day
one thousand light years ago...you're all the funk that i need
in this galaxy, wondrous tingz
all the funk that i need, all the funk, all the funkyou're all the funk that i need
in this galaxy, wondrous tingz
all the funk that i need, all the funk, all the funk
