

Radio

The Avalanches

Johnny, Johnny, open up
Johnny, it's Frank, open up
Look you've been in there for three weeks
Now come on, open up Johnny, Johnny, out of my way
I'm watching television, are you crazy?
That's the test pattern, I like it Well, there are two things to be done
First of all, we put him in the hospital
And withdraw all television, I see
And then, we give him this radio Radio, radio, radio, radio, radio Sending those signals, sending those
signals
Sending those signals, those digital signals
Sending those signals, sending those signals
Sending those signals, those digital signals Sending those signals, sending those signals
Sending those signals, those digital signals
Sending those signals, sending those signals
Sending those signals, those digital signals Two times you do, understand
Is it as good, understand
Two times you do, understand
Is it as good, understand Two times you do, understand
Is it as good, understand
Two times you do, understand
Is it as good, understand Sending those signals, sending those signals
Sending those signals, those digital signals
Sending those signals, sending those signals
Sending those signals, those digital signals Sending those signals, sending those signals
Sending those signals, those digital signals
Sending those signals, sending those signals
Sending those signals, those digital signals Oh, can't you hear it?
Can't you hear it?
