

# The Bomb

## Kenny Dope

Girl, you wanna sex me  
Girl, why don't you let me  
    You really turn me on  
    I think we could swing it  
    Girl that's why I'm sayin'  
    Baby, you're the bomb  
Well it was just the other day  
    I was walkin' down the street  
And I saw you standin' by yourself  
    You were looking so cute  
    In your black daisy dukes  
Thought you probably had a man or two  
Then you stepped to me and asked me my name  
I gave you my number and the time we could meet  
Then I watched that booty swingin' as you walked away  
    I knew it was on cause  
    Oh baby, you're the bomb  
    Ya baby, you're the bomb  
I went to pick you up, you were lookin' so tough  
    In your tight black mini skirt  
Your curves were jumpin' out, I had to close my mouth  
    'Cause baby you're a piece of work  
And then I took you to the club, we turned the party out  
    I wanna take you home, do some sexin' on the couch  
        You gotta let me know  
        If this thing is really on  
        I'm sprung on you baby  
    'Cause baby, you're the bomb  
        Girl, you wanna sex me  
        Girl, why don't you let me?  
        You really turn me on  
        I think we could swing it  
        Girl that's why I'm sayin'  
        Baby, you're the bomb?  
    Ooo baby, you're the bomb  
I wanna make love to you, baby  
    And I'm about to explode  
        Come on let's get it on  
    Wanna do ya, all night long

You got it goin' on

Ooo baby, you're the bomb

Baby, you're the bomb

You really turn me on

Baby, you're the bomb

Swing it girl let's

Girl, you wanna sex me

Girl, why don't you let me

You really turn me on

I think we could swing it

Girl that's why I'm sayin'

Baby, you're the bomb

Ooo baby, you're the bomb

You really turn me on

Girl, you wanna sex me

Girl, why don't you let me

You really turn me on

I think we could swing it

Girl that's why I'm sayin'

Baby, you're the bomb

Ooo baby, you're the bomb

Girl, you wanna sex me

Girl, why don't you let me

You really turn me on

I think we could swing it

Girl that's why I'm sayin'

Baby, you're the bomb

Ooo baby, you're the bomb
