Holiday

Vanessa Amorosi

Are you fed up, of taking each day as it comes
Dreaming of some better place
Takin' a long needed holiday
What you waiting for
(Chorus)
Are you forgetting your car keys
Breathing uneasy
Cold and so freezing
Cold ooh oh
Not knowing your name, and going insane
With no one to blame but you you you
So maybe your time to scrub off the grime
Get out of the house and get away
Drinking tequila, dancing under the stars
Taking things too far, ha ha
Is your smile gone, motivation run off?
Looking for the bright burning sun
Need the chance for some little fun
Why are you still here
(Chorus)
Are you forgetting your car keys
Breathing uneasy

Cold and so freezing
Cold oh oh
Not knowing your name, and going insane
With no one to blame but you
So maybe it's time to scrub off the grime
Get out of the house and get away
Drinking tequila, dancing under stars
Taking things too far, ha ha ha
Why don't we start to live
Pack our bags, go for it
Explore you, explore me
Why's it wrong, we have needs
Holiday
(Chorus)
Are you forgetting your car keys
Breathing uneasy

Cold and so freezing
Cold oh oh
Not knowing your name, and going insane
With no one to blame but you you you
So maybe it's time to scrub off the grime
Get out of the house and get away
Drinking tequila, dancing under stars
Taking things to far, ha ha ha
