Below

Bell, Book & Candle

Standing on a hill
And it's nightime
Seeing all the lights
And hearing thunder
The valley down below
All the noise that goes to show
There can be no peace
Can be no peace in this world of mine
There can be no peace
Can be no peace in this world of mineInside my mind is screaming
Screaming from the pain that I feel
I get disturbed in my dreams
In my dreams from outside
It seams
The real world is noisy
The real world is noisy
The real world is noisyThere where times when i
Lived for today but now I hate
Every word I say
And I just wanna stay alone
Maybe I turned out too small
Or probably I don't live at all
Maybe I turned out too small
Or probably I don't live at allInside my mind is screaming
Screaming from the pain that I feel
I get disturbed in my dreams
In my dreams from outside
It seams
The real world is noisy
The real world is noisy
The real world is noisy
