

# Fallen Angel

[Uriah Heep](#)

Fallen angel, fallen angel Everyone I see reminds me of you  
I keep turnin' round expectin' you to be there  
I keep seein' our past through my looking glass  
But fallen Angel where are you now After all these years I remember the tears  
When we parted you said don't forget me  
You were ridin' so high now they're passin' you by  
Girl I never forgot you please come and get me Livin' without you is hard enough anyway  
But knowin' you're hurtin' makes it so much worse every day  
I just wanna love you any way that I can  
And watchin' you cry wasn't part of my plan Fallen angel, fallen angel Tell me how did it feel in your promised  
land  
That you chose as your pain and your pleasure  
A temporary sanctuary  
Oh, fallen angel I am you real treasure Fallen angel, fallen angel
