Escape

Earth Crisis

Conditioned to turn away
From all that was meant to be
Programmed to be a machine
Locked into a chemical captivitySwim out into the darkness
Won't return till it's accomplished
Sanity lost in madness
Obey the orders transmittedObsessed to tranquilize
White light satiates
The fury that possesses
In their hands there is no escapeControlled by the ones above
From afar they watch and wait
Through the deep search and locate
Lock on assault exterminateFor the ones killed their was no hate
Sent on a mission to obliterate
Return to enemy hands
The ones who dictate my commandsObsessed to tranquilize
White light satiates
The fury that possesses
In their hands there is no escapeBreak free, evade the masters
Not theirs to dominate
Overcome conditioning
Realize time to escapeBreak free, evade the masters
Not theirs to dominate
Overcome conditioning
Realize time to escape
