

# Sky Is the Limit

DJ Antoine

Sun is coming up over the hill  
I can hardly sit still  
I got the will and I'll find a way  
I am not afraid  
Waited for the chance  
All of my life  
I can't watch it go by  
Now is the time  
It's our choice to make  
Every breath we take  
No more praying  
Off your knees  
Play your heart out  
Till your finger's bleed  
Yesterday's history  
Tomorrow's a mystery  
But today we're gonna shine So put your hands up  
And touch the sky  
'Cause the sky is the limit  
Tonight  
We are all born to fly So put your hands up  
And touch the sky  
'Cause the sky is the limit  
Tonight  
We are all born to fly Reaching for a higher elevation  
A new destination  
New revelation  
Find it in your heart  
That's where you start, yeah  
So, no more praying  
Off your knees  
Play your heart out  
Till your finger's bleed  
Yesterday's history  
Tomorrow's a mystery  
But today we're gonna shine So put your hands up  
And touch the sky  
'Cause the sky is the limit  
Tonight

We are all born to flySo put your hands up  
And touch the sky  
'Cause the sky is the limit  
Tonight  
We are all born to flyNothing to fear  
But fear itself  
You got nothing to lose  
So give it hell  
I'm not wasting more dimes  
On wishing wells  
We gotta rise up highSo put your hands up  
And touch the sky  
'Cause the sky is the limit  
Tonight  
We are all born to flySo put your hands up  
And touch the sky  
'Cause the sky is the limit  
Tonight  
We are all born to fly
