

# Kill a Rapper

## KRS-One & Marley Marl

Advisory - the following lyrics contain explicit language:

I don't understand this man  
(It's bullshit)  
Why they can't ever solve the crime Marley?  
Whatever happened with that Scott LaRock case man?  
I don't know You wanna get away with murder? Kill a rapper  
You wanna get away with murder? Kill a rapper  
The investigation won't go further, kill a rapper  
You wanna get away with murder? Kill a rapper Scott LaRock's a open case, unresolved  
The cops never find the killer, when it's one of ours  
Tupac's a open case, even though  
He was killed in a open place, there's really no haste It's sorta like we govern ourselves  
Even though we lack a love for ourselves  
Or is that we know this thug shit sells?  
You want them pockets to swell well Even though we know we livin' in hell, what about big L?  
Hold up, let's stop frontin', let me tell you somethin'  
JMJ's dead and the cops don't know nuthin'?  
We gotta open our eyes to this too, this issue  
Lisa 'Left Eye', we miss you You wanna get away with murder? Kill a rapper  
You wanna get away with murder? Kill a rapper  
The investigation won't go further, kill a rapper  
You wanna get away with murder? Kill a rapper It seems like when a rapper dies, it don't matter  
He simply becomes a poster, somethin' to run after  
A reason for these kids to pull they guns faster  
Tryin' to emulate and be like dead rappers I roll with them visionary look-ahead rappers  
From the city to the farm pushin' John Deere tractors  
Bust this, in the city, there is no justice  
The whole system is flawed, how could you trust this? Crimes can't seem to be solved when it's one of us  
That's why there's no forgiveness and cats just wanna bust  
Hush, some people take the law into they own hand  
And get burned like touchin' frying pans You wanna get away with murder? Kill a rapper  
You wanna get away with murder? Kill a rapper  
The investigation won't go further, kill a rapper

You wanna get away with murder? Kill a rapper  
Man, we lyin' too much, we dyin' too much  
Mothers cryin' too much, brothers tryin' to touch  
That cash and such, in they hand they want a grand to clutch  
Dissin' they man and such  
But Christopher Wallace is a unresolved murder  
Another one is Mac Dre, I don't know if y'all heard of him  
But word is grim, when it turns to sin  
All hip-hoppers are next of kin  
We face what we supposed to face  
But when it comes to them crimes  
They never seem to close the case  
Yo Marley, uhh, uhh, uhh, uhh  
You wanna get away with murder? Kill a rapper  
You wanna get away with murder? Kill a rapper  
The investigation won't go further, kill a rapper  
You wanna get away with murder? Kill a rapper  
There he go right there  
Son, ain't even worth it, kid
