

# Burnt to a Crisp

## Carcass

(Solo: Cranial cremation) Torched to a pimple  
Peeling skin and tissue  
Inflammable rectal gases  
Scalding your sinews Charbroiled to blackened char  
Smoked, sauted and black  
Blistering flaking tissue  
Insalvageable by skin graft  
Fused into a mess  
Dribbling cartilage and fumes  
Your body shrivelling Your fingers beginning to prune Burnt to a cinder  
Your body charred  
Incinerated carbon  
Molten as tar  
Smouldering ashes  
Scorched entrails  
Carbonated dust  
Cremated remains Burnt to a crisp  
Your fat's on fire  
Devouring you whole  
Like a cadaver-stoked pyre Charred to the bone  
Your flesh is burnt  
Tissues molten  
Bodily gases inert  
Human inferno  
Blazing eruption  
Evaporating marrow  
Spontaneous combustion Burnt to a crisp  
Your hair is singed  
Devouring your scalp  
Receding your fringe Dripping flesh and fat  
Spreads like an irritating rash  
Your fingers melting  
As you vainly scratch (Solo: Malevolent Scrotal Incendiary Including Extreme Hate)
